

Powerful Prayer Against Internet Crimes

4

Praise and glory unto you my holy and wondrous God

God of creation and author of salvation I pray for your help to fight internet crimes.

It has become a pestilence in our generation that people's privacy and goods are under attack thorough data hacking. People and even children are lead into addiction of porn and games, sexual sin as fornication and adultery through cyber sex and dating sites, mobbing and bullying, excessive shopping and be lead into debts, shame, depression and suicide. Many innocent people are deceived and robbed through the internet in the Philippines.

In the name of Jesus Christ I flood the blood of the Lord into every Pserver, every router, every modem, every single communication device able to connect to the internet, on every bit of data in the Philippines and declare and degree exposure of hackers, scammers, thieves, lairs and con people in the Philippines. As far as it is on earth, I destroy all powers of witchcraft and strongholds concerning the internet of the Philippines and I crash all altars of witchcraft and all sacrifices made to satan concerning internet under my feet to dust and flush it away with the powerful blood of the Lord. I pray thee Lord, to take up the fight in the heaven's!

Holy Spirit I pray thee in the name of Jesus, that you ignite thy all consuming fire through the internet of the Philippines, to destroy the works and plans and structures and communication channels of the evil workers of iniquity. Change their access passwords, let their own made data viruses destroy their kingdom. Lord God I pray that all evil workers concerning internet crimes, will be discovered by our authority and be brought to justice.

Lord God almighty, before your throne, I pray thee for justice for all the Filipino victims of internet crimes, restore to them what the thief had stolen as I have cached the thief: satan is the thief!

In the name of Jesus Christ, I declare and degree, that all people who suffer addiction of any kind caused by the internet, will hear the word of the Lord by switching on their devices connecting to the internet, instead of being lead to their favorite websites to continue in their addiction, they will be lead to hear the gospel of Jesus Christ. All the workers of iniquity, will be lead to hear the gospel of Jesus Christ as they switch on their device, I pray that they feel the terror by night and will be in fear to be caught every minute as I declare and degree that they receive messages of authorities and law enforcement, that their IP is locked, identified and located. So that they face justice and have time to repent and be lead into salvation.

In the name of Christ Jesus, I break, when the Filipino people press the switch on button of every device connecting to the internet, every addiction, every spell and every curse. I break every chain of darkness and every rope tying them into the kingdom of satan and set them free and speak light into every internet user of the Philippines, I speak comfort and hope and courage and hunger for the word of God into every single person using the internet in the Philippines. Lord God, let them hear the gospel of Jesus Christ and be touched by it and to be lead into salvation for the glory of your name.

Lord almighty, I pray that the internet of the Philippines becomes a internet of the gospel of Jesus Christ, that it becomes save for our children and every internet user to be used, that true information's to be found and that it is used for godly education to make your people prosper and connect for the good. I pray that the internet of the Philippines becomes a strong pillar for the revival of the church of Jesus Christ in this nation and a help for the people of the Philippines and the strangers in it. I pray to you my heavenly father that whoever seeks help through the internet; will be automatically lead to the right channel, so that they hear what they need to hear. As thy word is anointed it shall touch them and lead them into your way my Lord for the glory of your holy name.

Father in heaven, I pray especially for the protection of our little children, who are exposed to pedophile people all over the world. I pray thee justice for them and that from now on, every single child pornography internet ring will be exposed inclusive all its users, That all internet dens exposing our little innocent children will be discovered and people brought to justice. That the children who are hurt and in trauma get council and be restored.

Lord I pray that through the internet of the Philippines, that the enemy's plans against the Philippine nation will be discovered, exposed and demolished. I pray Lord God, that the internet of the Philippines becomes a powerful way to protect your people from the spiritual and physical enemies

I thank you lord

In Jesus name I pray AMEN
